Education

Imperial College | Merit

Dual Master of Design Engineering 2023 09 - 2025 11

Royal College of Art | Merit

Innovation Design Engineering 2023 09 - 2025 08

Renmin University China | Top 10%

Master of Design Research 2022 09 - 2023 06

Renmin University China | Top 5%

Bachelor of Visual Communication 2018 09 - 2022 06

Experience

Xiaomi Auto

HMI Designer - Digital Cockpit, New Energy Vehicles

2025 11 - Now

- System UI/UX Governance** - Help build the definition and delivery of Xiaomi new energy vehicle System UI guidelines, iterating design solutions based on user research, user feedback, and market insights.
- Cross-functional collaboration** - Worked closely with product managers, software engineers, and External cooperative team (google...) conducting in-vehicle evaluations to ensure high-quality delivery and taking end-to-end responsibility for the in-cabin user experience.
- Localisation & Regulatory Compliance (EU)** - design optimisation for European market rollout, ensuring system UI and in-vehicle experiences complied with both Chinese and European standards and regulations.

Innovate ADHD

Product Manager Intern | London

2025 05 - 2025 11

- Led user and market research** to identify unmet needs in ADHD care. Synthesised insights into design and product strategies to improve user clarity and engagement. Collaborated across design and product teams to translate insights into actionable business opportunities.
- Multi task in startup** - Analyzed market / design strategy / **Web Design** / Docking with developers / Report Design.

Huawei

User Centered Design Lab | Design Intern | China

2024 07 - 2024 09

- Establish ToB design Principles** - Oversee the integration of mobile architecture for B2B platforms, analyze interaction data and user feedback from five B2B apps, and propose strategic design solutions based on identified issues.
- Empowering B2B design with AI** - Identify B2B and B2C design differences and use Midjourney to create targeted visuals accordingly.
- Analysed product data and user feedback** from B2B platforms to identify usability gaps. **Proposed strategic AI design optimisations.**

Nspace | NFT

Product Design | Remote

2022 01 - 2022 02

- Design and Marketing** - Collaborated closely with product managers to align design with the overall product strategy. I led the UI development for mini-program and H5 platforms, created a cohesive brand identity, and designed engaging NFT components. By actively participating in product planning, I provided insights on user experience, ensuring that design choices met market needs.

Projects

Urify

James Dyson Award UK National Runner-Up | Global 20 • Designer | London Entrepreneur

Led an end-to-end research and design project for early kidney health detection. Collaborated with medical and engineering experts, achieving national recognition and global shortlist.

Demonstrated ability to turn complex research into high-impact, feasible design and business opportunities.

Achieved national recognition as a UK Runner-Up and was further selected for the Global Top 20 review,

RES

Innovation Invention/Design Strategist | 2025 Winner of Social Analysis Competition

Explored innovative solutions for pollen allergy by leveraging technology and service design. Collected and analyzed social data to build an intelligent network that guides user behavior and decision-making.

RCA x OPPO

Product & Mkt Analysis | 2024 London Design Festival

Explored how EEG and AR technologies can be integrated to enhance driver safety and alertness.

Identified design opportunities through behavioural research and developed strategic design directions across disciplines.

Student Union

Head of the External Relations Department

Awards

2025 | Winner of The James Dyson Award

2025 | Winner of Analysis of Society

2024&2025 | London Design Festival
